

VDL PACKAGING

UVA INMOTION 500 ENDLESS POSSIBILITIES, BIG IMPACT

VDL Packaging creates and develops innovative packaging solutions for the pet food market. Tailor-made or off-the-rack, we are able to produce unique bags that are sustainable, efficient and innovative.

Searching for a unique shelf presentation, maximum product freshness and a flexible machine which is easy to use? Find out more about the UVA InMotion 500.

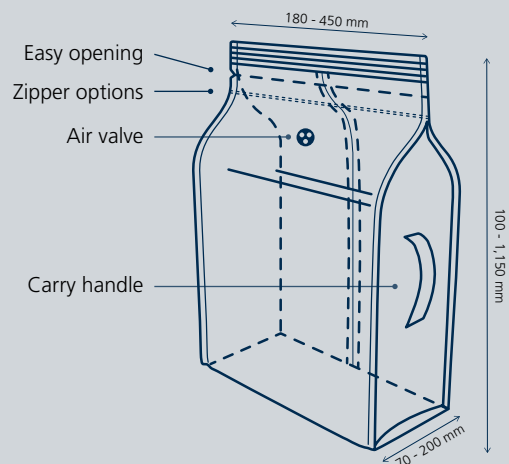

UNIQUE SELLING POINTS

- Able to produce symmetric and asymmetric bags up to a length of 1,150 mm
- Highest VFFS film width in the market, maximum web width 1,350 mm
- Smaller footprint than other open mouth and horizontal equipment for a higher output per m²
- Own zipper and valve applicator to offer more flexibility in choice of supplier
- Bag speed from 12-40 BPM depending on the size and complexity of the bag

VDL Packaging's UVA InMotion 500 is able to create multiple bag styles such as symmetric and asymmetric four corner seal bags with various (sustainable) foil choices and a wide spectrum of zipper options such as a press to close or slider zip.

The UVA InMotion 500 excels in its efficient vertical design, which results in a small footprint with just a minimum of required maintenance, resulting in a low TCO.

The combination of a solid, low maintenance design, re-closeability options, sustainable foil choices, options for extra product freshness and a vertical packaging solution, ensures the UVA InMotion 500 is ready to create the packaging of the future!

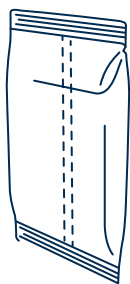

BAG OPTIONS

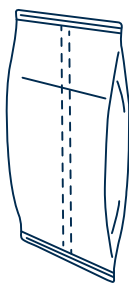

- Maximum flexibility in bag dimensions and styles
- Large symmetric and asymmetric bags up to a length of 1,150 mm and 35kg
- Bags achieving pre-made quality in look, feel and bag options for a lower PPB
- Flexibility in zipper choice press to close (P2C), slider zip or velcro or Aplix (hook to hook)
- Valve option for extra freshness and better palletising
- Flat bottom and large surfaces for creative marketing outings
- And many more

PACKAGING RANGE

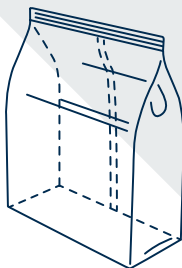

The UVA InMotion 500 can offer a variety of packaging solutions, according to your specific needs.

SPECIFICATIONS

UVA InMotion 500

Technology	Intermittent
Frame	Robust, stainless steel frame
Jaw width (mm)	500
Machine dimensions (w/d/h in mm)	2,500 / 4,750 / 2,857 / H with zip unit 3,700
Machine weight (approx.)	3,000 kg
Power supply	12.5 kVA (400 V, three phase, 50/60 Hz., 35A)
Control system	Allen Bradley 5500 CompactLogix 12-inch HMI touch panel
Max. seal pressure	12 kN
Compressed air requirement	6 bar
Mechanical bag output	12 - 40 bags per minute
Max. film roll diameter (mm)	700
Max film width (mm)	1,350
Min. bag size (w/d/h mm) (single pull)	180 x 70 x 100
Max. bag size (w/d/h mm) (double pull)	450 x 200 x 1,150
IP standard	IP54*
Sealing methods	Heat Seal / Poly Heat Seal

*The UVA InMotion 500 is IP54, this excludes third party equipment and peripherals

CUSTOMISED SOLUTIONS

In addition to the UVA InMotion 500, we offer customised solutions that exactly fit your needs and give you an advantage in the market. We empower your brand with specific solutions that support you to become bigger, better, bolder and more exciting. And therefore, create more impact with your packaging in the pet food market.

Our in-house engineering and production combine forces to create smart and simple solutions. Together we create the future of packaging!
